

Good Day –

If your child was identified as “gifted” in another school system or you want to nominate your child for AIG testing, you will need to include the following **information and documentation(copies of the information you are submitting)** with your registration packet/nomination form. Otherwise your child will have to go through the testing process in Wake Co which may occur during our Fall or Spring testing windows (depending upon the information given.) Without copies of documentation your child may not be tested at this time

****If you are interested in AIG testing, it is offered twice a year (Fall and Spring.). For testing you will need to nominate your child by filling out this form as well as providing documented data as to why your child needs differentiated instruction during our nomination window for that testing period. The nomination goes before a committee who will determine whether differentiation is needed or not. If they determine "yes" it is needed, then testing occurs in October/February. After testing is completed, the student will be identified in Math, ELA or both (or neither) with services beginning in January/August. The entire AIG testing process is a semester.*

I also have a webpage (on the main page of our school website or <https://mpmsaig.weebly.com>) with additional information. If you have any questions, I can be reached at 919-466-1500 ext. 20830 or tmorris@wcpss.net.
